

Enrich Topsoil

Enrich Topsoil is Manufactured to the British Standard B.S. 3882:2015

Range of Use	The soil is suitable for landscape projects, such as tree/shrub planting and roll-out turf, vegetable planting and seed establishment.
Material	Topsoil, peat-free compost.
Purity	Sustainable free from physical and chemical containments and pathogens.
Size Distribution	100% passing through 25mm screen. 50% passing through 10mm screen.
Soil Texture	Clay Loam, Sandy Loam.
Moisture Content	12 – 30%
Conductivity	<3300 μ S/cm
Plant Available Nutrient Values	Enrich Avg.
Total Nitrogen	>0.200 %w/w
Available Phosphorous	20 – 100 mg/L
Available Potassium	200 – 800 mg/L
Available Magnesium	80 – 300 mg/L
Available Calcium	>1,000 mg/L
Available Copper EDTA	7 - 9 mg/L
Available Zinc EDTA	~12mg/L
Available Sodium	~100 mg/L
Available Sulphate	~570 mg/L
Hot Water Soluble Boron	~1.4 mg/L
Organic Matter (LOI)	4 – 15 %w/w
pH Value	6 – 8.5
Carbon : Nitrogen Ratio	<20 : 1
Bulk Density	800 – 1,100 g/L
