

Enrich Organic Compost

Enrich Compost is Manufactured to the Irish Standards I.S. 441

Range of Use	Soil amendment to enhance and improve the physical chemical and biological properties of soil prior to planting, creating optimum conditions for plant growth. Can be mixed with soil before use or used for topdressing and 'no-dig' applications. Can be used as border mulch to suppress weeds. Not suitable for ericaceous plants.
Material	100% Peat-free compost. Certified Organic by the Irish Organic Association.
Purity	Sustainable free from viable weed seeds and pathogens.
Size Distribution	95% pass through 15mm screen. 90% pass through 10mm screen.
Conductivity (CaSO₄ Extraction)	<3500 µS/cm
Conductivity (Water Extraction)	<600 µS/cm
Total Nutrient Values	Enrich Avg.
Total Nitrogen	1 – 2.5 %w/w
Total Phosphorous	1,500 – 4,000 mg/kg
Total Potassium	6,000 – 15,000 mg/kg
Total Magnesium	3,000 – 5,500 mg/kg
Total Calcium	3 – 6 %w/w
Organic Matter (LOI)	30 – 60 %w/w
pH Value	7.0-8.5
Carbon : Nitrogen Ratio	<20 : 1
Bulk Density	350 – 600 g/L
